

# Detect

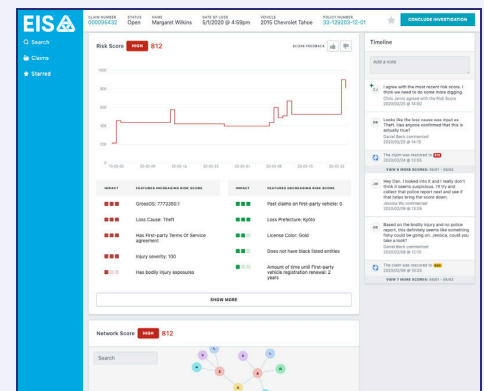

## AI-powered fraud protection for insurers

EISGROUP.COM

Detect is an advanced **AI fraud protection SaaS solution** designed to revolutionize the way insurers **detect and prevent fraudulent activities**. Our innovative solution catches insurance fraud quickly and accurately, minimizes investigator workload, and reduces pay-outs on fraudulent claims. Enable efficient claims handling and improved detection accuracy by **bringing automation and standardization to the fraud detection and investigation process**.

## Transform Your Fraud Detection and Prevention Strategy

- Our lightweight, AI-native fraud detection solution automatically detects fraudulent claims (personal and commercial) and organized fraud networks accurately and efficiently at scale. The automated fraud detection system enables legitimate claims to be fast-tracked and suspicious ones to be triaged for further investigation
- Give claim adjusters, managers, and SIUs real-time risk scores, while providing context around those scores via an intuitive dashboard throughout the claims process. Detect scans claims the moment an FNOL is submitted
- Empower claim handlers to think and act like an SIU by augmenting, not replacing, their expertise

## Accelerate and Enhance Fraud Detection with Detect's AI-Native Solution, Real-Time Risk Scoring, and Empowered Claim Handlers

**Proprietary machine learning decision engine** that scores every claim based on hundreds of evolving scenarios to detect fraud patterns. The ML models continuously learn from and evaluate user feedback, which empowers claims handlers to focus on the more complicated cases.

**Continuous Fraud Assessment** that monitors a claim throughout its lifecycle (from FNOL to closure) and at all transaction points, providing updated fraud scoring and risk insights as the claim matures, delivered via an intuitive dashboard.

Leverage and harness the power of your own **internal or external partner data**

**Seamless Integration** with your existing policy or claim management systems.

## Maximize Efficiency and Protect Your Business

- ▶ Catch more fraudsters faster at a lower cost
- ▶ Increase fraud case referral accuracy
- ▶ Decrease claims leakage
- ▶ Improve employee experience
- ▶ Gain straight-through processing (STP) capability
- ▶ Enhance your loss ratio

## Harness the Power of a Flexible, Scalable, and Cost-Efficient Cloud-Based SaaS Solution

- ▶ Over 140 pre-packaged features, customizable to your unique needs
- ▶ Benefit from 4+ years of proven fraud algorithms and optimized business processes
- ▶ Access to world-class data scientists and fraud experts for robust fraud management
- ▶ Seamless integration with Report (dynamic FNOL) and Streamline (intelligent process automation) for an end-to-end digital customer experience
- ▶ Fast, seamless onboarding and deployment, with support from PoC to full implementation

By choosing Detect, your organization will gain a **powerful tool in the fight against insurance fraud**, ensuring your operations run more efficiently while providing a secure and seamless experience for your customers. **Embrace the future of fraud protection with Detect.**
